DETAILED ACTION

Allowable Subject Matter

Claims 1-31 are allowed.

The following is an examiner's statement of reasons for allowance:

None of the prior art of record discloses a dirty state as shown in the table on page 6 of the specification as being "The cache line is valid and more up-to-date than memory. The cache line has not been modified by the caching processor, and the caching processor has the only cached copy in the system...", as such none of the prior art of record discloses the claimed invention in its entirety as claimed in independent claims 1, 12, 19, 24 and 28 and their associated dependent claims.

Claim 31 is allowable as none of the prior art discloses where a read migration is permitted to occur from a target processor to a source processor when the data is written to the target processor and to prevent future read migration of the data to the cache of the source processor from the target processor when the data is not written to the cache of the target processor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul A. Baker whose telephone number is (571)272-4203. The examiner can normally be reached on M-F 10am-6:30pm.
